Subject: Awareness and Preventive Measures Against Dengue

Dear Parents,

With the rise in dengue cases in the city and surrounding areas, the safety and well-being of our students remain our top priority. We request your kind cooperation in taking necessary precautions to protect children from mosquito bites and help prevent the spread of dengue.

In this regard, the following measures are being implemented with immediate effect:

1. Uniform Modification (Temporary):

Students are permitted to wear the school shirt with long sleeves and trousers (in place of skirts/shorts) for the time being to minimize skin exposure.

2. Use of Mosquito Repellent:

Kindly apply mosquito repellent cream or provide students with roll-on repellents before they come to school.

3. Proper Hydration:

Ensure your child is well-hydrated. Encourage them to carry a water bottle to school.

4. Awareness at Home:

We urge you to regularly check your surroundings for stagnant water and take preventive measures at home.

The school is also taking necessary steps like regular fumigation, checking for water stagnation, and awareness drives on campus.

Let's work together to keep our children safe and healthy.

Warm regards,

Ms. Vandana Midhaa

(Principal)
